Mix Questions Set

Question: 1

A customer has an active Enterprise Agreement (EA) for Professional Desktop, Windows Server, Microsoft SQL Server, and Microsoft SharePoint Server.

Which benefit requires activation?

- A. Windows Virtual Desktop Access (VDA)
- B. License Mobility Across Server Farms
- C. License Mobility through SA
- D. Training Vouchers

Answer: C

Question: 2

DRAG DROP

Match the deployment options to the corresponding Software Assurance (SA) benefits. To answer, drag the appropriate deployment option from the column on the left to its SA benefit on the right. Each deployment option may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Deployment Options

- Desktop deployment
- Microsoft Azure deployment
- On-premises server deployment

Answer Area

License Mobility through SA

Unlimited Virtualization rights

Home Use Program

Deployment option

Deployment option

Deployment option

Answer:

License Mobility through SA	On-premises server deployment
Unlimited Virtualization rights	Microsoft Azure deployment
Home Use Program	Microsoft Azure deployment

Question: 3

A customer purchases Windows Server licenses through an Enterprise Agreement (EA). Which Software Assurance (SA) benefit can the customer leverage?

- A. Disaster Recovery Rights
- B. Fail-Over Rights
- C. Unlimited Virtualization rights
- D. Windows Virtual Desktop Access (VDA)

Answer: D

Explanation:

<https://blogs.technet.microsoft.com/volume-licensing/2013/05/10/microsoft-volume-licensing-mail-bag-three-questions-on-virtual-desktop-access-vda-licensing/> "https://blogs.technet.microsoft.com/volume-licensing/2013/05/10/microsoft-volume-licensing-mail-bag-three-questions-on-virtual-desktop-access-vda-licensing/"

Question: 4

Which User Subscription License (USL) provides the same Software Assurance (SA) benefits as Microsoft Office Professional Plus, Microsoft Core CAL Suits, and Windows 10 Enterprise E3?

- A. a Microsoft 365 Enterprise E3 From SA USL
- B. an Office 365 Enterprise E5 full USL
- C. a Microsoft 365 Enterprise E3 full USL
- D. an Office 365 Enterprise E1 From SA USL

Answer: C

Explanation:

Question: 5

A company named Contoso, Ltd. has the following requirements:

- Implement an online content management solution that includes advanced workflow capabilities, sophisticated communication, and collaboration.
- Provide employees with access to the most up-to-date version of Microsoft Office.
- Manage personal devices that employees use to access corporate resources.
- Enable employees to install Office applications on multiple devices.

You need to recommend a licensing solution that minimizes costs.

Which licensing solution should you recommend?

- A. Office 365 Enterprise E3 and Enterprise Mobility + Security E3
- B. Microsoft Enterprise CAL Suite, Office Professional Plus 2016, and Enterprise Mobility + Security E3
- C. Microsoft Enterprise CAL Suite and Office Professional Plus 2016
- D. Office Professional Plus 2016 and Enterprise Mobility + Security E3

Answer: B

Question: 6

HOTSPOT

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Statements	Yes	No
Windows Server Standard licenses covered with active Software Assurance (SA) can be assigned to Microsoft Azure Virtual Machines ("Base Instances").	<input type="radio"/>	<input type="radio"/>
Windows Server Datacenter licenses covered with active Software Assurance (SA) have additive rights under the Microsoft Azure Hybrid Benefit.	<input type="radio"/>	<input type="radio"/>
Sixteen Windows Server Standard core licenses covered with active Software Assurance (SA) can be assigned to four Microsoft Azure Virtual Machines ("Base Instances") that each have four cores.	<input type="radio"/>	<input type="radio"/>

Answer:

Statements	Yes	No
Windows Server Standard licenses covered with active Software Assurance (SA) can be assigned to Microsoft Azure Virtual Machines ("Base Instances").	<input type="radio"/>	<input checked="" type="radio"/>
Windows Server Datacenter licenses covered with active Software Assurance (SA) have additive rights under the Microsoft Azure Hybrid Benefit.	<input checked="" type="radio"/>	<input type="radio"/>
Sixteen Windows Server Standard core licenses covered with active Software Assurance (SA) can be assigned to four Microsoft Azure Virtual Machines ("Base Instances") that each have four cores.	<input type="radio"/>	<input checked="" type="radio"/>

Question: 7

DRAG DROP

Match the features to the corresponding descriptions. To answer, drag the appropriate feature from the column on the left to its description on the right. Each feature may be used once, more than once, or not at all.

NOTE: Each correct selection is worth one point.

Deployment Options	Answer Area
Cloud PBX	Feature Identify and deliver electronic that can be used as evidence in legal cases.
Customer Lockbox	Feature Control how a Microsoft support engineer access your data during a help session.
Data loss prevention (DLP)	Feature Extend an existing telephone system for call deligation and call on-behalf functionality.
eDiscovery	Feature Provide statistics that help you understand how you spend your time at work.
MyAnalytics	
PSTN Calling	

Answer:

Answer Area

eDiscovery	Identify and deliver electronic that can be used as evidence in legal cases.
Customer Lockbox	Control how a Microsoft support engineer access your data during a help session.
PSTN Calling	Extend an existing telephone system for call deligation and call on-behalf functionality.
MyAnalytics	Provide statistics that help you understand how you spend your time at work.

Explanation:

Identify and deliver electronic information that can be used as evidence in legal cases = eDiscovery

Control how a Microsoft support engineer accesses your data during a help session. = Customer Lockbox

Extend an existing telephone system for call delegation and call on-behalf functionality = PSTN Calling

Provide statistics that help you understand how you spend you spend your time at work = MyAnalytics

Question: 8

A customer plans to implement a Virtual Desktop Infrastructure (VDI). The virtual desktop will run Windows 10 Enterprise.

The customer has no active Software Assurance (SA).

The following devices will access the virtual desktops:

- 100 laptops licensed for Windows 8.1 Enterprise
- 100 desktop licensed for Windows 10 Pro
- 50 desktops licensed for Windows 8.1 Pro
- 50 Apple iPads

You need to ensure that all the devices are licensed to access VDL.

How many devices should be licensed for Windows Virtual Desktop Access (VDA) rights?

- A. 50
- B. 100
- C. 200
- D. 300

Answer: D

Explanation:

References:

<https://searchvirtualdesktop.techtarget.com/definition/VDA-Virtual-Desktop-Access>

Question: 9

This question requires that you evaluate the underlined text to determine if it is correct.

A customer has an Enterprise Agreement (EA).

The customer makes an annual Monetary Commitment payment of \$50,000 US dollars for Microsoft Azure services through the EA.

In month four of the EA, the customer has already used \$80,000 dollars of Azure services.

The customer must pay for the overage at the end of the enrollment.

Review the underlined text. If it makes the statement correct, select "No change is needed." If the statement is incorrect, select the answer choice that makes the statement correct.

- A. No change is needed.
- B. at the end of the quarter
- C. at the end of the month
- D. at the end of the year

Answer: B

Explanation:

Question: 13**HOTSPOT**

A customer starts a new project that will enable the following functionality for its employees:

- An advanced workflow to streamline the approval process
- Rights protection for documents that indicates security levels

All the employees are licensed for Microsoft Core CAL Suite.

Which additional CALs should the customer acquire for each type of server? To answer, select appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Microsoft SharePoint Server:

A Standard CAL only
An Enterprise CAL only
A Standard CAL and an Enterprise CAL

Windows Server:

A Windows Server CAL only
A Windows Server Active Directory Rights Management Services CAL only
A Windows Server Remote Desktop Services CAL only
A Windows Server CAL and Windows Server Active Directory Rights Management Services CAL
A Windows Server CAL and Windows Server Remote Desktop Services CAL

Answer:

Microsoft SharePoint Server:

A Standard CAL only
An Enterprise CAL only
A Standard CAL and an Enterprise CAL

Windows Server:

A Windows Server CAL only
A Windows Server Active Directory Rights Management Services CAL only
A Windows Server Remote Desktop Services CAL only
A Windows Server CAL and Windows Server Active Directory Rights Management Services CAL
A Windows Server CAL and Windows Server Remote Desktop Services CAL

Question: 14

A customer plans to deploy Microsoft SharePoint Server.

Which two additional products should be licensed for the deployment? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

A. Microsoft System Center

- B. Windows Server
- C. Microsoft Project Server
- D. Microsoft SQL Server

Answer: B, D

Explanation:

[https://HYPERLINK "https://blogs.technet.microsoft.com/volume-licensing/2013/08/08/licensing-how-to-sharepoint-server-2013-licensing-changes/"blogs.technet.microsoft.com/volume-licensing/2013/08/08/licensing-how-to-sharepoint-server-2013-licensing-changes/](https://blogs.technet.microsoft.com/volume-licensing/2013/08/08/licensing-how-to-sharepoint-server-2013-licensing-changes/)

Question: 15

A customer has an Enterprise Agreement (EA).

The customer is evaluating Operations Management and Security E1.

You need to identify which product license can be used as the qualifying license for an Operations Management and Security E1 Add-on Subscription License (SL).

What should you identify?

- A. Microsoft System Center Configuration Manager
- B. Core Infrastructure Server Suite Standard.
- C. Windows Server Datacenter.
- D. Widows Server Standard

Answer: A

Question: 16

A company named Contoso, Ltd. acquires Microsoft Dynamics 365 for Team Members, Enterprise User Subscription Licenses (USLs) for 450 users.

Which portal should be used to assign the licenses to the users?

- A. the Volume Licensing Service Center (VLSC)
- B. the Microsoft Azure Enterprise portal
- C. the Microsoft Office 365 admin center
- D. the CustomerSource portal

Answer: A

Question: 17

HOTSPOT

A company named Contoso, Ltd. plans to install Microsoft SQL Server on the physical servers shown in the following table.

Server name	Configuration
Server1	Four processors that each have two cores
Server2	Four processors that each have four cores
Server3	Four processors that each have eight cores

Contoso needs to acquire SQL Server 2016 Enterprise licenses for the servers.

How many licenses should be assigned to each server? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Server1:

	▼
0	
8	
16	
32	
64	

Server2:
